- ASTM A193 B7
- ASTM A193 B7M
- ASTM A193 B16
- ASTM A193 B8
- ASTM A193 B8M
- B8T
- B8C
- B8MX
- B8TX
- 660 A, B, D
- ASTM A320 L7
- ASTM A320
- L7M
- ASTM A453
- ASTM 660A
- ASTM 660B
- ASTM 660C
- ASTM A325
- ASTM A490

We can produce from any commercially available material

Domestic and Non- China materials are our specialty

SPECIALTY MACHINED FASTENERS AND BESPOKE COMPONENTS

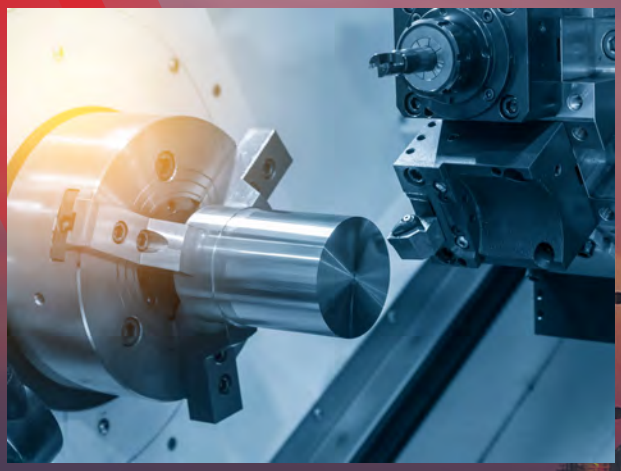
CNC machining capacity allows Patriot to produce specialty threaded components and custom parts per customer print. Understanding the complexity of these components, we quickly work with our clients to understand all needs and coordinate design, approval and manufacture with a fast turnaround.

MOLY B AND NICKEL 328 ANTISEIZE

Patriot is pleased to offer the most premium thread lubricants and anti-seize in the market. Produced by TS Moly, these Moly and Nickel based lubricants contain high amounts of solids. This ensures that low friction factors are maintained and the risk of galling is minimized even at extreme temperatures.

WASHERS AND CONICAL SPRING WASHERS

Conical Spring Washers are engineered to deliver a load characteristic to a bolted connection so that load is maintained through thermal cycles and inherent relaxation. Available in a variety of materials and load designs, let our technical group work to design something for your application.



State of the art CNC equipment, Landis threaders, ovens and testing equipment capable of meeting the most stringent industry standards

Patriot Bolt can also provide full traceability and origin certification of any raw material or manufactured component we offer
