

EXPANSION JOINTS

Patriot expansion joints are engineered to deliver high performance, dependability, shelf-life, leading to enhanced safety in plant and extends mechanical integrity of equipments

Our expansion joints carry high safety ratings which exceed product specifications in areas such as pressure and temperature in all industries.

They are effectively used in oil & gas, marine industries, refineries, smelters, chemical plant, fossil fuel industries, nuclear plants and cyogenic plants etc.

We custom design and manufacture expansion joint in different materials to fit the need of diverse industries.

RANGE OF PRODUCT

	mm	inch
• Rubber Expansion Joint	32 to 600	1 1/4" to 24"
• Metallic Expansion Joint	50 to 1500	2" to 60"
• Fabric Expansion Joint	100 to 2000	4" to 80"
• PTFE Expansion Joint	25 to 300	1" to 12"
• Seismic Expansion Joint	25 to 150	1" to 6"
• Flexible Hose	8 to 500	1/4" to 20"

Any large size can be manufactured upon request.

PIPE SUPPORT ACCESSORIES

- Insulated Pipe Clamp
- Clevis Hanger Clamp
- U Bolt Clamp
- Saddle Clamp
- Support Channels
- Clamped Pipe Support
